

agile communication

**Increase your impact**

the future of agility

In a world saturated with information, your prospects, customers and partners are now hungry for messages targeting their specific interests, and they reject impersonal messages.

In an automated and potentially massive manner, agile communication enable sending tailored messages to the members of each target group.

1000Club.com frees your communication.

## Mission

Communicating agilely.

## Ways

Your authorized subscribers automatically update your target groups based on your filters: occupation, industry, language, zip code, city, region, country, age group, gender.

The presentation of your messages is world class: superior to that of emails. Your messages include HD images / videos.

**Marc Planchette**

CEO, founder

Dynamic Circles open the door to agile communication: targeted, massive, confidential, and automatic.

A single minute is enough to create a Dynamic Circle dynamically updated according to your selection criteria.

The creation of several Dynamic Circles gives you the flexibility to adapt the content and form of each message to the target groups of your choice.

Depending on your exhibition or confidentiality needs, your messages are seen on:

- The Newsfeed of your authorized subscribers.
- The automatic pairings Hub 4.0.
- The traditional search engines.
- Your smart Website.

Selecting a circle limits the delivery of a message to exclusive filtered members of that circle who instantly discover your post on their newsfeed.

Now is the perfect time to decide to communicate specifically rather than generically.

1

**to be authentic**

A young boy with a wide smile is giving a thumbs up. He is wearing a dark t-shirt with the words 'PEPE JEANS' visible. The background is a blurred outdoor setting with trees and a fence.
